PROFESSIONAL SUMMARY

Motivated Computer Science graduate with a strong foundation in programming, problem-solving, and software development. Proficient in Python, JavaScript NodeJS and web technologies , Long term goal is to become an Machine learning engineer and ML libraries such as Pandas , scikit-learn , NumPy etc. Eager to learn, innovate, and contribute to dynamic projects.

Educational

- **Bachelor of Computer science** 2023-2026
Mumbai University – Maharashtra
Nirmala Memorial Foundation of Collage of science and commerce
- **Maharashtra State Board of Secondary and Higher Secondary Education** 2022- 2022
Maharashtra State board – Maharashtra
Nirmala Memorial Foundation of collage of science and commerce

Skills

- Programming Languages: Python , java
- Fronted & Frameworks: ReactJS , Django , php
- Backend & Frameworks: Nodejs , Javascript
- Tools : Jupyter Notebook, Git , GitHub, Visual studio code
- Database : PostgreSQL , MySQL , MongoDB Atlas

Certification

- Full stack by Udmey
Technology : PHP, SQL , Html , CSS
- Data analyst by simplilearn powered By Microsoft
Tool: Microsoft Office

Soft skill & HOBIES

- Confidents and determined
- Good communication
- Fast leaner
- Problem solver
- Playing cricket
- Exploring places
- Curiosity to learn
- Riding

Projects

1. Role Based access control system

Tech stack : React native , NodeJS , MongoDB

- **Role-Based Access Control (RBAC)** for secure authentication and authorization in a multi-user application.
- Built backend APIs with **Express.js and Mongoose**, integrating middleware for role validation.
- Used **JWT and cookies** for secure session handling and token-based authentication.
- Developed an **admin dashboard** for managing users, roles, and permissions.

2. AI Chatbot with LoRA Fine-Tuning

Tech Stack: Python, HuggingFace Transformers, PEFT, Streamlit, Git

- **Fine-tuned** google/flan-t5-small language model using **LoRa (low-Rank Adaptation)** technique to create a custom Q&A chatbot
- Built end-to-end **ML pipeline** including data preparation, tokenization, model training and inference
- Deployed chatbot as a web application using **Streamlit Cloud**
- Reduced trainable parameters by 90% using LoRa compared to full fine-tuning

Languages

- Hindi
- English
- Marathi(basic)
